OBJECTIVE

Motivated Computer Science Engineering student with strong knowledge in Data Engineering, ETL pipelines, SQL, and Data Warehousing. Passionate about building data-driven solutions using Python, PySpark, and Databricks. Seeking opportunities to apply technical and analytical skills through internships and collaborative projects.

EDUCATION

Bachelor of Engineering in Computer Science Engineering 2023 - 2027

J.J. College of Engineering and Technology, Tiruchirappalli

CGPA: 7.86

Higher Secondary Education Completed

Devi Metric Higher Secondary School

Percentage: 79%

SKILLS

Programming Languages	Python, SQL
Libraries/Tools	Pandas, PySpark, Databricks
Data Engineering	ETL Pipelines, Data Warehouse, Data Cleaning
Concepts	OOP, Star Schema, Problem Solving
Languages	Tamil, English

PROJECTS

1. End-to-End Data Engineering Pipeline

- Designed and implemented a complete ETL pipeline using Databricks and PySpark.
- Extracted, transformed, and loaded structured data into a data warehouse.
- Improved data organization and query efficiency for analytics-ready datasets.

2. Data Warehouse Project

- Built a structured data warehouse using SQL with fact and dimension tables.
- Applied Star Schema principles for efficient analytical querying.
- Implemented ETL workflows for data transformation and integration.

3. Bus Booking System

- Developed a CLI-based bus booking application using Python.
- Implemented authentication, seat booking, and cancellation features.
- Designed the project using Object-Oriented Programming concepts.

CERTIFICATIONS

- Claude 101 – Certificate of Completion (2025)
- Introduction to Claude Cowork – Certificate of Completion

STRENGTHS

- Quick Learner
- Team Collaboration
- Analytical Thinking
- Problem Solving
- Adaptability
