Professional Summary

Computer Science Engineering student with hands-on experience in Java, Spring Boot, and MySQL. Skilled in developing REST APIs, implementing CRUD operations, and designing backend systems using layered architecture. Passionate about backend development and real-world applications.

Education

J.J College of Engineering and Technology

Tiruchirappalli

Bachelor of Engineering in Computer Science Engineering

CGPA :7.89

Aug 2023 – May 2027

Sowma Public School

Manapparai

Higher Secondary Education

2021 – 2023

12th Percentage: 75%

Secondary Education

10th Percentage: 66.2%

Projects

Smart Inventory & Order Management System (Spring Boot)

- Developed a full-stack inventory management system using Spring Boot and MySQL.
- Built REST APIs for managing products and orders.
- Implemented a low-stock alert system.
- Designed an order module with priority and status tracking.
- Used Spring Data JPA and layered architecture.

Jewellery Billing System

- Developed a Java-based console application using OOP concepts.
- Calculated item cost including GST, wastage, and making charges.
- Supported multiple items and dynamic input handling.

Inventory & Order Management UI Design (Figma)

- Designed mobile-based UI screens for an inventory system.
- Created login, dashboard, and order tracking interfaces.
- Built an interactive prototype for user navigation.

Technical Skills

Programming Languages: Java, MySQL

Frameworks & Technologies: Spring Boot, HTML, CSS

Tools: IntelliJ IDEA, VS Code, Git, Figma

Core Concepts: OOPS, DBMS, CRUD Operations, Backend Development, REST APIs

Certifications

- Claude 101 — Anthropic
- Claude Code 101 — Anthropic
- Software Engineer Certificate — HackerRank
