Professional Summary

Computer Science Engineering student with knowledge in Java, Spring Boot, MySQL, and UI design. Passionate about backend development and software engineering. Experienced in developing academic projects involving CRUD operations, database integration, and responsive user interfaces. Quick learner with strong problem-solving and communication skills.

Education

J.J College of Engineering and Technology

Bachelor of Engineering in Computer Science Engineering
CGPA: 7.93

Tiruchirappalli
Aug 2023 – May 2027

Campion Anglo Indian Higher Secondary School

Higher Secondary Education
12th Percentage: 79%

Tiruchirappalli
2021 – 2023

Projects

Procurement Management System (Spring Boot)

- Developed backend REST APIs using Spring Boot framework.
- Connected MySQL database for procurement data management.
- Implemented CRUD operations for handling procurement requests.
- Designed frontend pages using HTML and CSS.
- Applied MVC architecture concepts for project structure.
- Improved understanding of backend development and database integration.

Procurement System UI Design (Figma)

- Designed responsive UI screens for procurement workflows.
- Created login, dashboard, approval, and request management pages.
- Focused on clean and user-friendly interface design.
- Organized layouts for better navigation and accessibility.
- Learned practical UI/UX design principles and prototyping.

Electricity Bill Generator

- Developed a Java-based application to calculate electricity charges.
- Implemented billing calculations using conditional statements.
- Applied Object-Oriented Programming concepts in Java.
- Generated bill amounts based on electricity usage slabs.
- Improved logical thinking and problem-solving skills.

Technical Skills

Programming Languages: Java, MySQL

Frameworks & Technologies: Spring Boot, HTML, CSS

Tools: Git, VS Code, IntelliJ IDEA, Figma

Core Concepts: OOPS, DBMS, CRUD Operations, Backend Development, REST APIs

Certifications
